LAYOUT & LOCATION

A NATURAL CONNECTION

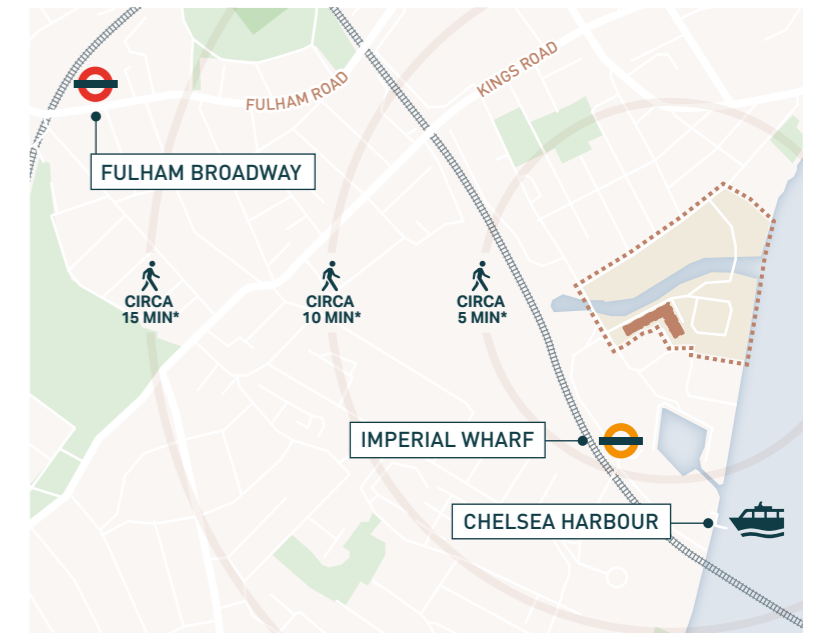

The development's location offers stunning views of the architecturally impressive, Lots Road Power Station that sits adjacent, on the northern side of Chelsea Creek. To the east, public walkways meander through The Water Gardens, established as part of the broader Chelsea Waterfront development, en route to the Thames. From here, a spectacular vista opens up taking in the twinkling lights of Albert Bridge and awe-inspiring views of the iconic London skyline beyond.

With access to the Thames Path and an array of brand new amenities on the door step, Lots Waterside Apartments provides a West London location that is hard to beat.
